

Domain Assessment

DA

This domain assessment evaluates each student's retention of domain and academic vocabulary words and the core content targeted in *Fairy Tales*. The results should guide review and remediation the following day.

There are three parts to this assessment. You may choose to do the parts in more than one sitting if you feel this is more appropriate for your students. Part I (vocabulary assessment) is divided into two sections: the first assesses domain-related vocabulary, and the second assesses academic vocabulary. Parts II and III of the assessment address the core content targeted in *Fairy Tales*.

Part II (Instructional Master DA-2)

I will read descriptions of fairy tales. Listen to the description. Look at the illustrations, and find the illustration for the fairy tale being described. Write the number of the description in one of the boxes below the matching fairy tale picture. For example, when I read the first description, you will write the number 1 in a box below the fairy tale picture that matches the description. Each picture will have two matching descriptions.
